

PRESS RELEASE

TM Grupo Inmobiliario opens its third hotel in Riviera Maya, Mexico, The Fives Oceanfront Puerto Morelos

- With an investment of 25 million dollars, the company consolidates its presence in the Mexican Caribbean with nearly 1,000 hotel rooms.
- The five-star hotel has 94 luxurious rooms and will house the world's first RoMarley Beach Club.

Madrid, July 7, 2020 - Mexico is a strategic destination for TM Grupo Inmobiliario, specifically the Riviera Maya, where it has been present since 2006 under the brand name of "The Fives Hotels & Residences". After the opening of the first hotel resort "**The Fives Beach Hotel & Residences**" with 700 rooms and "The Fives Downtown Curio by Hilton" in 2017 with 133 rooms, considered the first boutique hotel in the Riviera Maya, the Alicante **company opens its third hotel establishment, The Fives Oceanfront Puerto Morelos, on July 24, consolidating its presence in the Mexican Caribbean.**

The Fives Oceanfront is a 5-star boutique hotel with 94 suites decorated in a contemporary Mexican style, set in the unique prime location in the picturesque town of Puerto Morelos. **A quiet luxury coastal heaven just 15 minutes from Cancun International Airport**, perfect for those seeking an environment integrated into nature, where tranquillity and natural landscapes are key features.

In addition to two infinity pools with stunning views of the Caribbean and a premium spa offering exclusive holistic treatments and gardens for meditation, the hotel will feature gourmet restaurants and **the world's first beach club by Rohan Marley, son of the reggae legend Bob Marley.**

After the success of the partnership between The Fives and the Marley family, which began with the opening of the first Marley Coffee at The Fives Downtown Curio by Hilton, **RoMarley Beach House** arrives in Mexico together with The Fives Hotels & Residences, to become a point of reference for exclusivity, gastronomic experiences, sophistication and well-being, creating a distinctive experience for its guests.

The group **has invested \$25 million in this new hotel and plans to create 300 direct and indirect jobs**, demonstrating their commitment to Mexico. The company, **which currently employs 1,000 people**, is firmly committed to the community and directs its corporate responsibility resources to the Riviera Maya through The Fives Foundation, born with the aim of contributing to sustainable local development through projects such as the construction of the José Luis Serna Noh-Bec School, important environmental protection collaborations with the municipalities of Playa del Carmen and Puerto Morelos and initiatives to support the community, such as the recent opening of soup kitchens or the launch of a call centre offering support to the population during the recent health crisis.

NOTE TO THE EDITOR:

TM Grupo Inmobiliario is a company from Alicante with 50 years of history, whose main objective is to develop real estate, tourism and hotel projects that incorporate differential services and provide an exceptional customer experience. Specialized in the construction and real estate development of secondary tourist residences, with more than 20,000 properties delivered mainly in Mediterranean arc countries, the company encompasses other business lines related to its main activity, such as hotel management and the operation of 1,000 rooms in the Riviera Maya - Mexico, holiday rentals, real estate brokerage and agricultural operations, among others. Commitment, solvency, innovation, leadership and a clear focus on both customers and results are the 6 pillars on which the success of the company is built, which, together with its 1,000 employees and an expansion plan of more than 3,000 homes planned in prime locations by the sea, they continue their vision of being a reference group in the residential tourism sector.
